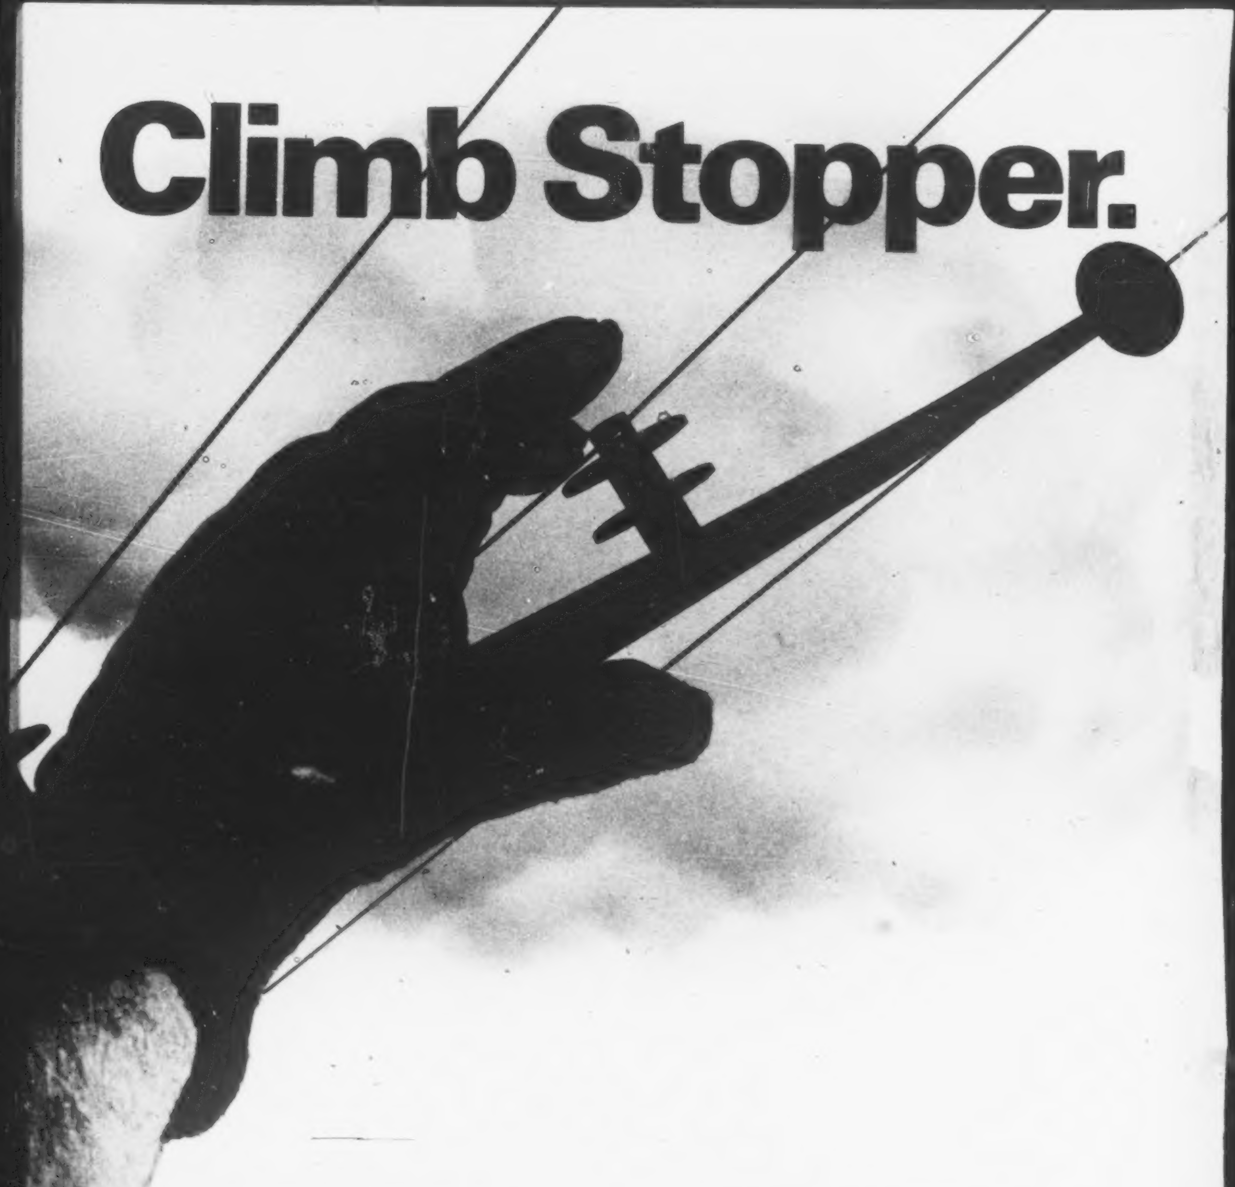
Climb Stopper.



G-Line Barrier-mounted Climb Detector.

For simple, effective barrier protection, nothing touches GTE's G-Line.

G-Line's passive 3-wire system detects an intruder's attempt to climb over the top of your building, wall or fence. Even if no actual contact is made.

G-Line doesn't use up valuable space or require expensive barrier modifications. It just gives reliable, effective, low-cost protection against the "smart" intruder. And it makes a great addition to the FPS-2 fence protection system for that special high-risk facility.

G-Line operates on the differential concept, thereby virtually eliminating common environmental threats like wind and rain. As a passive non-radiating system, it also is unaffected by passersby. And its low-voltage operation makes it easy on power requirements.

But best of all, it's from GTE, specialists in outdoor perimeter protection needs. For details on G-Line and other GTE perimeter protection needs, write GTE Systems, Security Products Dept., P.O. Box 1448, Mountain View, CA 94042. Or call 415/966-2210 or 966-3135.

Because with G-Line as part of your system, one thing's for sure — no one is going to put anything over on you.

DIRECTORY

FOREWORD

This 46th edition of the *Directory of Juvenile and Adult Correctional Departments, Institutions, Agencies and Paroling Authorities* continues to provide unique and important facts to the correctional community. Organizational overviews explain the structure of correctional systems in each jurisdiction. State, federal and Canadian systems, listing institutions and administrative staff as well as programs, populations, capacities, cost of care, age limits, personnel counts, and probation and parole systems are identified.

Note the statistical summaries in the beginning pages of the *Directory*. These summaries encapsule fiscal, personnel, populations and related statistics covering the adult and juvenile systems as of June 30, 1985. In some cases, the editor has had to interpret or combine information provided. For detailed information beyond that given in the summaries, please contact the public information officer for the department in question.

The personal locator is another useful aspect of this *Directory*. An alphabetized listing of all individuals noted in this publication, the locator simplifies locating an individual when the employing state is not known.

Two other directories published by the Association round out a complete guide to the correctional system. The *1983-85 National Jail and Adult Detention Directory* provides vital information on the nation's jails and adult detention centers. The 1985-86 *Probation and Parole Directory* provides federal, state and county information on adult and juvenile probation, parole and aftercare services in the United States and Canada.

Corrections' volatility and political influences, especially following an election year, make it impossible for the *Directory* to be up to date at the time of publication. However, we make every effort to keep a current *Directory* in the research department; please do not hesitate to contact the editor if you need information. We welcome any comments you might have for improving any aspect of this directory.

The Association extends a special thank you to the participating corrections officials and staff who provided the information necessary for this publication. Their generous spirit of cooperation and professional concern make the publication of this important directory possible each year.

MEETINGS OF THE AMERICAN CORRECTIONAL ASSOCIATION

Each year the American Correctional Association sponsors two major meetings—the Winter Conference in January and the Congress of Correction in August.

Both annual meetings provide a forum for setting national correctional policy and goals and for focusing on the challenges to the corrections field. Both meetings also offer workshops as varied as all the sectors of the Association's membership and that appeal also to non-ACA members in the corrections field. To promote the exchange of information between professionals, tours of local correctional facilities and exhibit booths displaying the latest correctional products and services are featured. The Congress also offers technical workshops and professional seminars.

The prominent speakers at these workshops are leading experts in the field, and the tone is positive, proactive, and relevant. These professionals address the current problems, new developments, and major issues in the field from an active, dynamic viewpoint.

By participating in these annual meetings you can support the continued professional growth of the ACA and also strengthen your professional relationships with decision makers from the field.

From master planning to facility activation, Kitchell cuts time and costs, without cutting corners.

Kitchell

A $90,000 per cell price tag nearly brought the California prison construction program to a halt in 1983. That's when Kitchell CEM, using computerized cost models, stepped in to analyze all aspects of the new California Medical Facility South.

After examining first cost, staffing, equipment, schedule and life cycle costs, Kitchell demonstrated that it was possible to build a functional, code-approved prison and save over $45,000 per cell.

Then, we went ahead and built it. And in one year's time, from start to initial occupancy.

The California Medical Facility South . . . safe, solid, and secure. It's the only way we build.

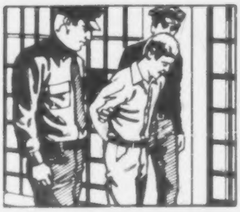
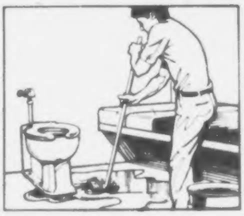
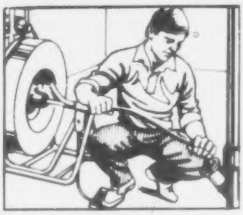
How to avoid a flood of problems.



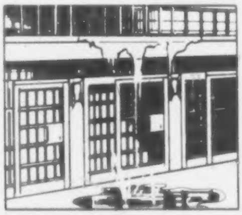
Officers must transfer inmate



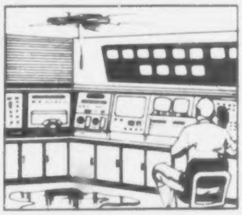
Locate janitor to clean cell block



Plumbing repairs might be needed



Lower cell blocks could be damaged



Adjacent operations possibly affected

THE FLOODBUSTER™

PNEUMATIC FLUSH DISABLER

New from Bradley

When a single angry inmate blocks his toilet with an object and pushes the flush valve repeatedly, the result is often more than a single inconvenience. This fairly common act of criminal mischief can cause a chain reaction that ends up costing you a great deal of time, labor and potentially great property damage.

Not only does a flooded toilet mean using prison officers to transfer the inmate to another area and finding a janitor to clean the cell block, it may also cost the services of a plumber to fix damaged pipes and ceiling leaks. And if your institution is multi-story, lower cell blocks could be damaged by water as well. Even worse, if the flooded facility is in an administration building, adjacent operations including computer rooms or courtrooms could also be seriously affected.

No electrical hookup required

Now with Bradley's Floodbuster™ Pneumatic Anti-Flood Flush Disabler*, you never have to worry about toilet flooding — or the hassle of electrical connections. That's because this remarkable system is pneumatically activated by flowing water. The nonelectrical flush valve disabling system features a sensor device that prevents the toilet from being flushed when an overflow condition exists. So major flooding is prevented. Because the flooding sensor is not visible or accessible to inmates, the system is vandal-resistant, too. And it can be serviced easily from the chase.

Specify the Bradley Floodbuster™ Pneumatic Anti-Flood Flush Disabler today. It could save you countless headaches tomorrow.

Notes:

1. Act 774 of 1983 changed method to lethal injection, with clause allowing those already under death penalty the option of electrocution.
2. Individual has choice of manner of death.
3. Legislation is pending which would change method of execution to lethal injection.
4. On July 1, 1984, the Court of Appeals found the New York State death sentence unconstitutional. The only sentenced prisoner on death row was then removed from the condemned unit.
5. As of Nov., 1982, sentenced prisoners were taken out of general population and put into Administrative Maximum Custody.
6. Manner of execution is in accordance with laws of State in which Federal sentence is imposed. The sole offense for which capital punishment is available is Aircraft Piracy, 49 U.S.C. 1472 (i). S. 1765 would amend Federal criminal laws to provide procedures to utilize the death penalty for other offenses, such as homicide, where it is now authorized but cannot be used because of procedural inadequacies. Legislation is supported which proposes the death penalty for those inmates serving life sentences who murder while incarcerated.

Why PLATO® belongs behind bars.

PLATO® is a computer-based system that can unlock doors to opportunity in corrections' administration and staff training. And open new avenues to success in inmate education, training, and job-seeking programs.

CONTROL DATA has drawn on years of experience in correctional service to provide a broad-based package of PLATO training products.

The PLATO system includes more than 12,000 hours of courseware delivered on free-standing microcomputers or by telephone-line connection. Corrections courseware includes remediation, GED preparation and vocational programs to give inmates an "outside" chance. And management training, computer literacy, corrections officers training, and health and safety programs to help administrators and executives.

For complete corrections service information, call toll-free at 1-800-828-8001, extension 2370. Or write Corrections Systems, HQN12G, 8100 34th Avenue South, Minneapolis, MN 55440.

ATCO Correctional Housing solves the problem of prison overcrowding.

ATCO factory-built transportable housing is readily available and extremely cost-effective, with an excellent record at major correctional institutions in the United States and Canada. These include correctional facilities in Saskatoon, Canada and Cañon City and Buena Vista, Colorado. Adaptable housing modules including dormitories, kitchens, diners, recreation centres and administration offices, can be leased to answer every accommodation need.

OTHER ADVANTAGES:

Leased ATCO units are particularly successful as incentive housing. Attractive, comfortable accommodations naturally encourage good behaviour; ATCO gets rave reviews from captive audiences.

Call or write for a brochure and full information regarding the many ATCO correctional housing applications and lease arrangements available.

INSULGARD IC SERIES DETENTION GLAZING MATERIALS & SYSTEMS

Conner Correctional Center, Hominy, Oklahoma

INSULGARD Systems and LEXGARD laminates... performance plus architectural design versatility for detention facilities. Independent testing has shown that LEXGARD laminates resist the abuses of physical and thermal attack. LEXGARD laminates applied alone in detention facilities provide these protection advantages economically while avoiding the delamination and costly glass breakage replacement problems associated with glass-clad polycarbonate laminates.*

Add the high performance of LEXGARD laminates to the INSULGARD double and triple glazed units and the result is a versatile component system.

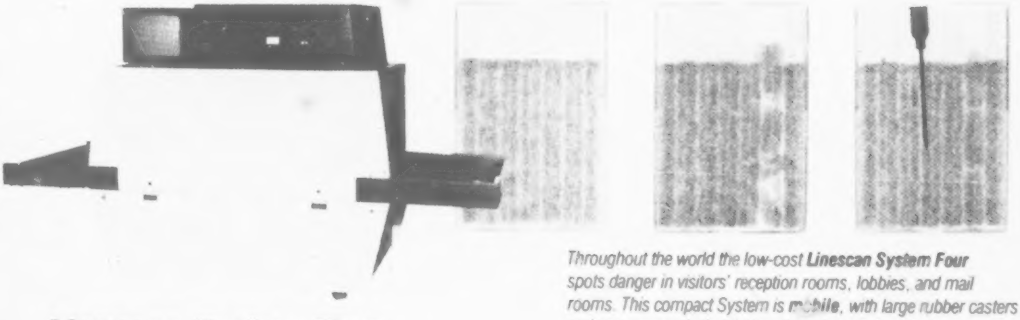
Can you tell which packages contain the narcotics?

LINESCAN®

can.



*Throughout the world the low-cost **Linescan System Four** spots danger in visitors' reception rooms, lobbies, and mail rooms. This compact System is **mobile**, with large rubber casters and conveyor ends that fold so it can be rolled easily from one location to another.*

Linescan System Four

Visitors can bring in big problems in small packages if you don't really "look inside." Items that might not be detected with the naked eye — syringes, narcotics, weapons — can be discovered easily with a Linescan Conveyerized X-ray Inspection Unit. Danger to security guards and other personnel is sharply reduced, as you can view "inside" details vividly, easily, and quickly. Objects are clearly viewable without distortion, and a zoom option is available for closer inspection of suspect areas.

We have a wide range of security units to select from, including the System Seven which inspects objects up to 40" x 40" x unlimited length. And all Linescan Systems are backed by our worldwide training and service network, so write or phone for information. The more you want to see, the better Linescan looks.

Sierracin Glass-Clad Polycarbonate Glazings...

Proven in critically secure areas worldwide...in prisons and embassies, in government, corporate, financial and nuclear facilities. Sierracin glazings are approved by the Federal Bureau of Prisons and have been extensively tested by other U.S. and foreign agencies for resistance to all threats.

For resistance against high-powered ballistics, even after multiple hits, as well as physical force and flame attack, Sierracin OmniArmor™ is the answer.

For resistance against physical force, Sierracin OmniLite™ is proven in over 500 critically secure installations. Four all-new multi-ply polycarbonate designs deliver resistance against the severest types of attack weapons—from claw hammers and battering rams to pipes, sledge hammers and pick axes.

For resistance that deters vandals and burglars— for storefronts, jewelry cases, homes and factories —Sierracin OmniGard™ delivers the protection to match the threat.

With certified fire-rating. Two OmniLite cross sections offer a 20-minute fire rating conforming to UBC 43.2 and CSFM 43.7 fire codes. Test reports available upon request.

With the electronic dimension for ultimate security. Sierracin glazings may be ordered with alarm capability to complete your security system.

ORGANIZATION AND ADMINISTRATION

*Under the **Department of Corrections**, the **Facilities Division** is responsible for adult offender institutions (state and county) and transitional centers (work release, pre-release, and adjustment centers) and the **Probation Division** for services on the state and county level (field supervision, Probation/Restitution/Diversion Centers).*

*The **Board of Pardons and Parole** is an independent agency which reviews adult parole cases and provides field parole supervision. It is also the only state agency vested with the power to grant clemency.*

*Under the **Department of Human Resources' Division of Youth Services**, juvenile institutions, parole and the majority of probation services are provided. In a few counties, intake and probation services are provided by county-operated and financed juvenile courts. In several counties, these responsibilities are shared by both Division of Youth Services staff and county staff.*

Bible Alliance, Inc.
P.O. Box 1549 Bradenton, Florida 33506

Bible Alliance is pleased to be provided the opportunity of introducing our organization to the American Correctional Association.

Bible Alliance is a non-profit, non-denominational organization which has recorded the Bible New Testament and portions of the Old Testament in English, Spanish, German, French and Italian, as well as many other widely spoken foreign languages on audio cassettes. These Scripture albums are provided **FREE OF CHARGE** to Institution Chaplains for their chaplaincy programs. Our policy is not to distribute to individual inmates, but rather to provide the materials for the facility chaplaincy department library in order to make them available to a greater number of inmates.

We also provide a number of Bible study albums on cassette on the same basis, as well as our Sound Player which operates on 110/220V, external battery, or by a self-contained hand cranked generator. Our player is offered, free of charge, in concert with the Scripture albums and not as a stand-alone order item.

These materials are available to Federal, State, County and City institutions and facilities. A complete list of our materials as well as order forms are available to provide the opportunity for you to order materials for your chaplaincy department. Please write for further details. Inquiries should be directed to:

what's so special about this telephone?

everything when it comes to communications & emergency alert

Rauland TELECENTER provides instant 2-way communications between administrators and guard stations. It monitors cells or cell blocks on a selective basis. It provides visual and audible alert in emergency situations: the Administrative telephone readout flashes and indicates the emergency location; a repetitive tone sounds the alert; at the push of a single button the administrator communicates instantly with the calling station.

GRAPHIC DISPLAY AVAILABLE

The entire layout of your facility may be viewed on a graphic display panel which indicates sources of incoming calls. This is one of a number of desirable options designed specifically for correctional security. A Telecenter Specialist in your area is ready to survey your facility and recommend the proper system for your needs. Write or call for full information.

JUVENILE INSTITUTIONS

*Original jurisdiction in juvenile cases is at the District (Magistrate) Court level. These courts cannot commit directly to an institution, but commit instead to the **Department of Health and Welfare**, with or without a recommendation for placement. The Department then makes placement decisions regarding youth committed to the department's custody. A youth is under the purview of the juvenile code up until the age of eighteen, although the department may maintain jurisdiction of a committed youth up until the age of nineteen. The maximum age of jurisdiction by the department was reduced from 21 to 19 with the enactment of the amended Youth Rehabilitation Act on July 1, 1985.*

The department may not commit status offenders or misdemeanants to the State Youth Services Center.

JUVENILE RELEASE AUTHORITY

The Administrative Director of the State Youth Services Center has the legal authority to discharge youth from the institution. Discharges typically occur as a result of a joint planning process which involves the Center's staff and the department's various regional youth rehabilitation staff.

JUVENILE PROBATION AND AFTERCARE SERVICES

Aftercare services are carried out by seven Regional Service Managers who supervise Regional Youth Services Programs in the state. The seven Managers report to the Director of ***Department of Health and Welfare.***

Juvenile probation services are provided by the state Regional Programs in ¼ of the counties (by contract with the counties) and by county probation staffs in the remaining ¾ of the counties. The county probation staffs report to County Commissioners.

ADULT INSTITUTIONS

Adult felons with sentences of one year or more are committed to the adult institutions of the Department of Corrections. As of July, 1983, misdemeanants (those with a sentence of less than one year) may not be sentenced to the Department.

Sentences for crimes committed prior to February 1, 1978 were indeterminate sentences. Newly prescribed penalties are determinate sentences, followed by periods of mandatory supervised release for from one to three years, depending on the classes of offenses. Conversion of remaining indeterminate sentences to definite release dates is done by the ***Prisoner Review Board.***

A unit of the ***Bureau of Inspections and Audits*** *of the Department provides training and advisory services to all county and municipal jail facilities. It is also responsible for inspections of all county and local jail facilities.*

We listen to you.

We call ourselves architects and planners, but our clients know us as good listeners. That's because long before we draw lines on paper, we establish lines of communication. By listening to you and your staff, we learn what you need, what you want, what pressures you face. From conversations with you come ideas to build on — and projects built the way you want them.

If you need design services, let's talk.

JUVENILE INTAKE, PROBATION AND AFTERCARE

The decision to put juvenile offenders on probation instead of institutionalizing them is made by the Court, based on the recommendation of the juvenile counselor. The Intake, Probation and Aftercare services are provided by juvenile counselors within each region. The State (including Baltimore City) is geographically broken down into ten regions; the Supervisors administer the services for their region of the state. They are responsible to the Assistant Director for their respective regions.

ORGANIZATION AND ADMINISTRATION

*Adult institutions and the **Adult Parole Board** come under the jurisdiction of the **Department of Corrections**. Adult parole and felony probation services are administered by the **Bureau of Field Services** within the Department.*

Misdemeanant probation services are handled by District Courts throughout the state.

*The **Office of Children and Youth Services** (juvenile institutions) and the **Youth Parole and Review Board** are within the **Department of Social Services**.*

The administration of juvenile probation and aftercare is the responsibility of the state, the court administrator and the county levels of government. The Office of Children and Youth Services is required to provide consultation and assistance to juvenile probation workers.

The Juvenile Courts may commit youth to the Department of Social Services for treatment services, which may include aftercare. These juveniles are subject to the Youth Parole and Review Board.

ADULT INSTITUTIONS

*Any individual convicted of a felony and sentenced to a term exceeding one year is committed to the **Department of Corrections**. Persons under 18 whose juvenile status has been waived and who are convicted of a felony and sentenced to a term longer than one year also come under the Department's jurisdiction.*

ORGANIZATION AND ADMINISTRATION

*Both the adult and juvenile state correctional institutions come under the jurisdiction of the **Department of Corrections**. The Commissioner of Corrections has responsibility for parole and supervised release with the exception of the parole of inmates with life sentences. This parole authority is delegated to the **Office of Adult Release**. The **Executive Officer of Juvenile Release**, under the authority of the Commissioner, is the paroling authority for juveniles.*

*The **Board of Pardons** has the authority to grant pardons and pardon extraordinaries, and to commute sentences.*

Probation, parole and supervised release are provided by the state and counties in different manners. Counties participating in the State Community Corrections Act (one-third of the counties; two-thirds of the state population) provide probation, parole and supervised release services to both adults and juveniles. In the remaining counties, these services are provided by the counties either with their own personnel or through contracts with the state.

We asked our clients to speak for us

In a survey of our clients by an independent agency, we liked what we heard (OK, we wouldn't tell you if we didn't).

They say they like Szabo service ("excellent," "professional," "outstanding," "responsive," "simply cooperative").

They like contract management of health and medical services for corrections ("freed me to deal with other functions," "saved money," "brought stability to our program," "tickled to death with the financial control," "eased a burden off," "cost effective").

And they like Szabo's approach ("refreshingly honest," "dependable," "flexible," "communicates with everyone, not just chiefs," "showed us how to get a better system and finance it," "strong headquarters support").

Can we show you what our clients are talking about? Call Ed Wolf.

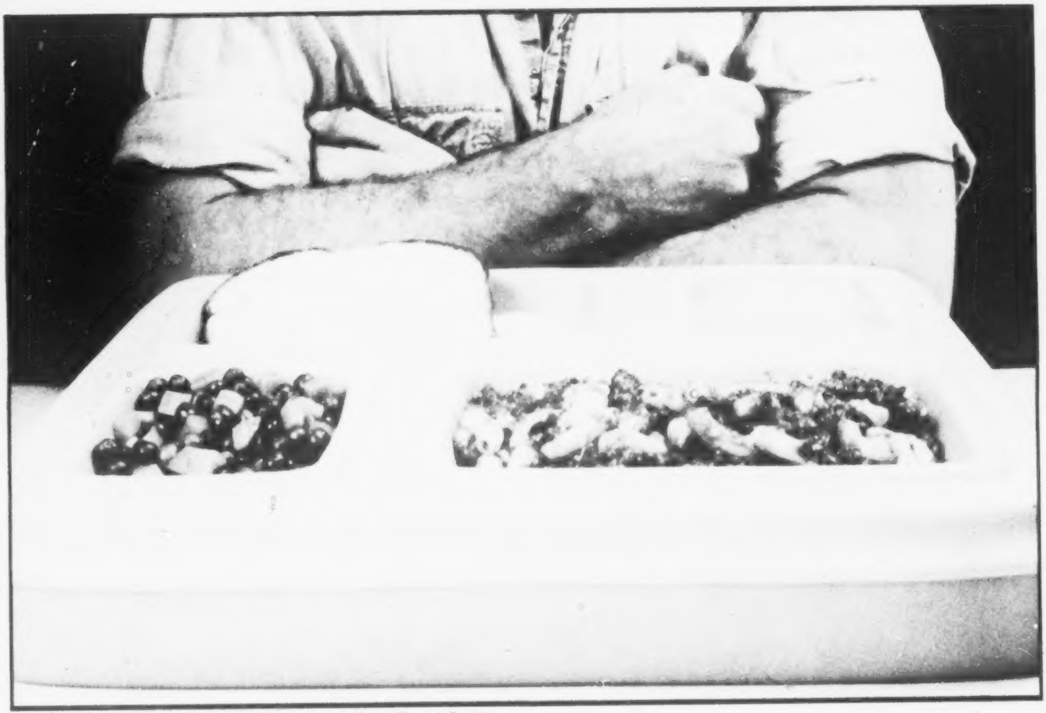
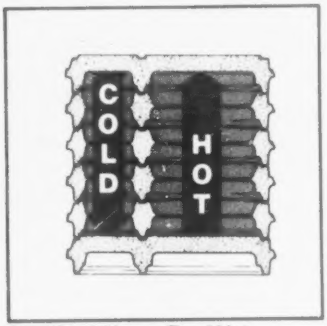
Holds Heat! Holds Up!



Insulated Servers Keep Hot Food Hot, Cold Food Cold.

The Heat's On To Keep the Heat In The Meals You Serve

Want to hold required 140°F serving minimums and find durable serviceware to do it with, too?



Tray Stack Keeps Food Hot To Required 140°F Minimums.

Use Aladdin servers. They capture the heat that's cooked into food to keep it hot. Urethane foam wrapped in a tough, molded shell, insulates it. Perfect for isolation and satellite meals.

Because servers stack in an inter-locking tower, heat rises from each serving compartment, keeping food items above warm.

Cold food items in the stack, meanwhile, keep each other chilled. Materials and seamless molding technique make system impact- and torque-resistant. Protects your investment.

COMMUNITY SERVICE CENTERS

The Community Service Centers are a pre-release concept designed to ease the re-entry of the released, adult offender into the community. Houses not more than 50 for a period of about four months. Residents work a regular full-time job or attend school or vocational training. Residents eligible for admission into the program are those who have achieved minimum custody status in the institution, who meet stipulated admission criteria and who are within seven months of release to parole or termination of sentence.

Unfortunately, most security systems are based on the same idea.

Most security "systems" rely too heavily on one component (technology for instance). But putting all your eggs in one basket can leave you vulnerable in other areas.

The solution is to design a system that's uniformly strong. From the mainframe down to the manuals.

We're the Penn Central Technical Security Company. We're leading integrators of security systems, organized to focus exclusively on the security job. We've designed and installed sophisticated security systems throughout the world for the US Army, Navy, Air Force, other government agencies and international corporations. The key to our solution is called Systems Security Engineering. A sophisticated name for a very simple idea. A security system is only as strong as its weakest link.

We take into account your total security needs. From equipment and facilities down to personnel and policies. Which means we give you something no other security company can: A true balance between program and system capabilities. We meticulously analyze your needs. (Including threat and vulnerability analysis). We specify and furnish the right hardware and software. Then we install, maintain and support the entire system. We even train operators and maintenance technicians.

The result is a comprehensive, state-of-the-art system that's maintainable and reliable. Designed exclusively for your needs.

For a total approach to your next security project—from minor improvements to major upgrades—call **1-609-983-0909.** Ask for our Vice President, C.E. Kuhla. He'll tell you why Penn Central Technical Security Company is everything it's cracked up to be.

ADULT AND JUVENILE PROBATION SERVICES

A single probation department exists in each county to provide probation services to all courts in the county that handle adult and/or juvenile matters at the trial level. The Judges of the Superior Court in each county appoint probation officers, fix their salaries and generally oversee the day-to-day operation of each probation department. Operating costs are paid for out of county revenues.

The ***Administrative Office of the Courts,*** *through an Assistant Director for Probation, coordinates and supervises all probation services, acts for the Judiciary in relation to interstate probation matters, assists in developing policies and programs, conducts training for probation officers, and functions as consultants and advisor to the Judiciary.*

The purpose of the Division of Probation and Correctional Alternatives is to assist local probation departments in providing efficient and cost effective probation services through Rule, financial support, direct services, training, data collection and general supervision in three functional areas: intake/diversion, investigation/reports and supervision.

The Probation Commission advises and consults with the Director of Probation and Correctional Alternatives in the formulation of policies relating to probation throughout the state.

As reconstituted by Chapter 695 of the Laws of 1971 and amended by Chapter 496, Laws of 1972, the Probation Commission consists of the Director of Probation, who is chairman, and six other members selected as follows: three appointed by the Governor from among persons who, as members of the community, have demonstrated an interest and involvement in the field of probation; two appointed by the Governor from among probation administrators and probation officers actually employed in the field of probation; and the Chief Administrator of the unified court system. Members do not receive any compensation for their services; those appointed by the Governor serve at the pleasure of the Governor.

Maximum Security For The Transporting Of Prisoners....

The proper use of the C. & S. Security Handcuff Cover and No. 1 Security Chain can INSURE SAFETY FOR ALL OFFICERS who transport prisoners.

The Handcuff Cover fits Peerless Standard Handcuffs and Smith and Wesson Models 90, 94, 100 and 104.

When placing handcuffs on a prisoner for transporting be sure to dead lock them. The handcuff Cover protects the key hole and thus **prevents picking or tampering with any part of the lock.** The plastic cover (made of high strength high impact ABS) has a metal clip that the security link passes through. This allows the officer to use the security chain to restrict the movement of the prisoner's hands to any degree he deams necessary. When transporting, a small padlock placed through the two chains close to the snap will afford the security required to transport any prisoner.

The Executone® Maximum Security Telephone System:™ Added Safety for the Correctional Officer.

In a correctional institution, the telephone is far more than just a communication device. It's a tool to safeguard lives.

That's why Executone Inc., in cooperation with the Federal Bureau of Prisons, has designed the Maximum Security Telephone System: the most advanced computerized telecommunications network for correctional institutions ever conceived.

The Maximum Security Telephone System anticipates virtually every possible security situation. Take, for instance, the System's special "No Dial" feature that automatically generates an alarm if a phone is left off the hook longer than 14 seconds. Or the "Watch-Call Station" feature that simplifies and safeguards inmate head counts. To call in, officers simply dial a 3-digit code that instantly connects them to the "Watch-Call Station" located in the control center. Up to 32 officers can call in—and confer—simultaneously.

The System also provides special phones in key security areas like control centers, guard towers, sally ports and emergency personnel areas. Should an emergency arise, an officer need only dial a 3-digit code to set off all security conference phones simultaneously.

For all its technological sophistication, the System is remarkably easy to use, install and maintain. And its price is competitive with systems that are currently used in correctional facilities but do not offer these advanced security features.

So play it safe. Call the Executone experts and learn more about what this special System can do for your facility.

Del Norte Perimeter Systems show you what's happening and where, instantly.

The new Del Norte map annunciator system combined with the CIRCE or SP 2000 alarm processor gives you total perimeter control.

The system uses seismic geophone sensors — either fence-mounted or underground — and/or infrared beams to detect possible intruders or breakouts. The display and monitor system provides visual and printed records on all alarm information.

And the map displays come in both wall-mounted and remote mobile units for full versatility.

Call or write for details on Del Norte perimeter systems. Let us show you what's happening with the latest from Del Norte.

1.

Separating the handwash basin from the toilet eliminates straddling the toilet when washing, adding convenience and safety while contributing to overall sanitary conditions.

2.

The modular design allows virtually flush-to-the-wall mounting. Now the floor area required for the old style cabinet with drop-in lavatory is replaced by an attractive space-saving fixture.

3.

The lower modular console is available in left or right configuration and arrangement of shelves, hooks, tissue holder, vents, etc. is to your specification.

4.

Above the modular unit, the designer can specify to exact requirements; lights, outlets, mirror, etc. This attractive, functional design permits installations of units at all sites requiring vandal proof fixtures.

The modular design, the accessories available, the option of a ½ unit or a full unit constructed by us to your exact specifications gives you complete control and flexibility.

JUVENILE CORRECTION SERVICES

The Juvenile Correction Programs, administered by the Department of Human Services, provide community based evaluation and treatment services to juveniles and their families. These programs include both probation and parole services, of which the Childrens and Families Services Division is most active and takes formal legal custodianship of juveniles committed by the juvenile court. Nearly all children leaving institutional care receive aftercare (parole) services through these community correction programs.

OHIO

ORGANIZATION AND ADMINISTRATION

*Adult corrections institutions and parole services are provided by the **Department of Rehabilitation and Correction**; juvenile institutions and parole services are provided by the **Department of Youth Services**.*

***The Parole Board** of the Adult Parole Authority is the paroling authority for adult felons. The **Adult Parole Authority**, within the **Division of Parole and Community Services** under the Department of Rehabilitation and Correction, may exercise general supervision over all probation officers in the state, including those in county probation departments. All parolees and selected probationers referred by the Common Pleas Court on a contract basis are supervised by the Adult Parole Authority. In the remaining counties, probation services are provided by local probation departments.*

Upon release from an institution, juveniles enter aftercare status of the Department of Youth Services. Parole revocation hearings are conducted in the committing court.

Probation supervision of juveniles is provided by probation officers who are appointed by a Juvenile Court Judge.

ADULT INSTITUTIONS

A person convicted of a felony under Ohio law may be sentenced to a penal institution. Ohio statutes divide male penal institutions into two categories—reformatories and penitentiaries. Male persons, except those convicted of first or second degree murder, between the ages of twenty-one and thirty years of age may be sentenced to a reformatory, if such persons have not been known previously to have served a sentence in a federal, state or other prison or correctional institution, and are persons whom the sentencing court deems amenable to reformatory methods. Males between the ages of eighteen and twenty-one years, other than those convicted of first or second degree murder, must be sentenced to reformatories unless such males have previously served a sentence in a federal or state prison or correctional institution for conviction of a felony. All other males sentenced to a state penal institution are sent to a penitentiary.

Ohio operates only one facility for women; all women convicted of a felony and sentenced to a penal institution are sent to the Ohio Reformatory for Women.

ADULT PAROLE BOARD AND SERVICES

The Parole Board of the Adult Parole Authority within the Division of Parole and Community Services which is under the Department of Rehabilitation and Correction, has parole authority over adult felons. In addition to the seven full-time paid members, nine Hearing Officers expand the functions of the Parole Board.

The Parole Board can release felons from adult institutions on "shock parole" after six months confinement, provided the offense was not murder or aggravated murder, a felony of the first degree, and anyone serving a sentence of actual incarceration. Inmates who complete one-third of their minimum sentences before their first parole hearings may be eligible for educational and vocational furlough. Inmates are also eligible for regular parole after serving the minimum sentence less time for good behavior.

ADULT PROBATION

The Adult Parole Authority which is under the Department of Rehabilitation and Correction, may exercise general supervision over all probation officers in the state, including those appointed in county probation departments and those appointed by police and municipal judges. The Adult Parole Authority provides services for local common pleas courts on a contract basis. (See above listing)

Eligible felons may be released from adult institutions on "shock probation" by the common pleas judge of the sentencing county.

All parolees and selected probationers referred by the Common Pleas Court are supervised by the officers of the Adult Parole Authority.

DEPARTMENT OF MENTAL HEALTH

All adults over age 18 who are: 1) under indictment in Common Pleas Court for felony and found incompetent to stand trial; 2) transfers from the State Corrections Institutions (felons); 3) patients tried for a crime (felony) who are found to be "not guilty" by Reason of Insanity in Common Pleas Court are committed to the ***Department of Mental Health.***

JUVENILE INSTITUTIONS

To be placed into the custody of the ***Department of Youth Services***, *a juvenile offender must be committed by a county juvenile court for an offense which would be a Felony I, II, III, IV, or a capital offense if committed by an adult. Upon commitment, a youth is placed in the appropriate DYS institution based on criteria established regarding age, type of committing offense, and home county. All youth who are committed to DYS may, at the discretion of the Department, be institutionalized to age 21, although very few actually are. There are minimum periods of institutionalization as follows: Murder or aggravated murder, until the youth reaches 21 years of age; felonies of the first and second degree, one year; and felonies of the third and fourth degree, six months. It should be noted that many youth are released before the "minimum" period, through a statutory process which requires approval of the committing court.*

JUVENILE PROBATION AND PAROLE

Probation of juveniles is administered by probation officers who are appointed by a Juvenile Court Judge. The Judge may transfer the duties of probation to county probation departments but at no time may a juvenile case be handled by an officer from the Adult Division. The Office of Subsidies within the Department of Youth Services administers a program of state aid to juvenile courts.

In all but two counties, the Juvenile Court is within the Division of Domestic Relations of the Court of Common Pleas. Cuyahoga County has an independent juvenile court, and the Hamilton County juvenile court is a separate division of that county's Court of Common Pleas. All juvenile courts have exclusive original jurisdiction over delinquent, neglected, and "unruly" children under 18 and over physically handicapped children up to age 21.

ORGANIZATION AND ADMINISTRATION

*The **Department of Human Resources** is divided into the **Corrections Division**, responsible for adult correctional institutions and, through its Field Services Section, probation and parole; and the **Children's Services Division**, responsible for juvenile correctional institutions and parole services (within the Office of Correctional Services).*

*The paroling authority for adults is the **Board of Parole**, an independent agency responsible only to the Governor.*

There are presently 15 counties participating in the Community Corrections Act (CCA), which allows them to provide probation, parole and other services for adults.

There is no juvenile parole board. The release date for juveniles is determined by a team of institution and juvenile parole staff.

Juvenile probation services are provided by the counties.

ORGANIZATION AND ADMINISTRATION

*Adult institutions come under the jurisdiction of the newly formed **Department of Corrections**. The Commissioner is appointed by the Governor.*

*Adult parole cases are reviewed and supervised by the **Board of Probation and Parole** for probationers and parolees whose sentences are more than two years. County probation departments supervise adult cases with a sentence of two years or less paroled by county courts. The Board also has authority to supervise probation cases and offenders sentenced to confinement with a maximum of two years or less when paroled and referred to the Board by the county courts; county courts retain authority to revoke, terminate or take other judicial actions in these special cases.*

*Juvenile institutions come under the jurisdiction of the **Bureau of Group Residential Services of the Department of Public Welfare's Office of Children and Youth and Families**. Juvenile probation and aftercare are functions of the counties and their officers.*

There are no institutional juvenile parole boards; the Juvenile Court has complete and original jurisdiction over juvenile offenders.

ADULT INSTITUTIONS

Those convicted in adult criminal court and receiving maximum sentences of from two to five years may, at the discretion of the court, be sent to a Correctional Diagnostic and Classification Center for classification and transfer within the state system. Criminal convictions receiving five years or more must be sent to a Correctional Diagnostic and Classification Center. Where regional correctional facilities are available, counties within that region may send all individuals receiving sentences of six months to two years to the regional facility.

Parole eligibility occurs at the end of the minimum sentence which may not exceed one-half of the maximum sentence. For certain violent crimes, a mandatory five-year minimum sentence is required. All other cases are sentenced under 1982 sentencing guidelines which require the courts to justify any deviations.

Youthful offenders are adult criminal commitments, but because of age (15 to 21 years) are maintained at the State Correctional Institution at Camp Hill. Their sentences are statutorily established at indeterminate to six years unless the maximum for the offense is less than six years, in which case the sentence is indeterminate to the statutory maximum for that offense.

ADULT PAROLE AND PROBATION

The Board of Probation and Parole is responsible for paroling action and supervision of all adult offenders receiving a sentence of two years or more. Offenders sentenced to a maximum of less than two years are paroled by county courts and supervised by county probation departments.

The Board also has authority to supervise probation cases and offenders sentenced to confinement with a maximum of less than two years when paroled and referred to the Board by the county courts. The State Board has only supervision authority in these special cases; county courts retain authority to revoke, terminate, or other judicial actions.

The Board is responsible, by state statute, for establishing uniform state-wide standards for county adult probation services. It also administers a State Grant-in-Aid Program to counties for the improvement of county adult probation services.

★ BOARD OF PROBATION AND PAROLE (FT)

The Board consists of five full-time members, appointed by the Governor with the consent of a majority of the Senate members to serve staggered, renewable six-year terms. Board members are prohibited from engaging in any other employment or political activity.

ADULT INSTITUTIONS

Responsibility for direct supervision of institutions is divided among three regional administrators who report to the Assistant Deputy Commissioner for Operations. Because of overcrowded conditions, some state inmates are housed in designated local facilities, as provided for by legislation for a period of one year and may be renewed by mutual agreement of the Department of Corrections and local officials. The office of the ***Assistant Deputy Commissioner for Operations*** *is responsible for placing state inmates in designated local facilities. At the end of FY 1985, there were 56 designated local facilities with 501 Department of Corrections' inmates.*

PROBATION AND PAROLE SERVICES

The Department of Parole and Community Corrections supervises those placed on probation by the Court, on parole by the Board and those on early release programs created by the legislature to relieve prison overcrowding. They also develop community corrections alternatives to incarceration for the non-violent offender.

The Parole and Community Corrections Board is composed of seven members who serve six year staggered terms. The members are appointed by the Governor, with consent of the Senate, one from each of the six congressional districts, with one member-at-large.

Vested in the Board is the authority to grant paroles, to restore citizenship rights through pardon, and to oversee the operation of the Department of Parole and Community Corrections.

ORGANIZATION AND ADMINISTRATION

*The **Department of Corrections** operates the state adult correctional institution; its Field Operations Division provides adult probation and parole supervision and administers community correctional centers.*

*The **Board of Pardons**, the paroling authority for adults, reports to the **Board of Corrections**. Although administratively within the Department of Corrections, its decision-making authority is autonomous and uninfluenced.*

*The **Division of Youth Corrections**, within the **Department of Social Services**, operates the juvenile institutions and provides supervision of its releasees. The Division has its own paroling authority, the Youth Paroling Authority, which has jurisdiction of all youth committed to the Division by the Juvenile Court. Also, under the Division of Youth Corrections, detention centers are provided by the state as holdover facilities or for long-term care of youth offenders. (These centers and facilities are financed (50%) by the State but administratively operated by the counties.) Group Homes are used as an alternative to the Youth Development Center for children not requiring secure custody.*

Juvenile probation services are provided by probation officers under the juvenile courts.

WEST VIRGINIA

ORGANIZATION AND ADMINISTRATION

*The **Department of Corrections** is responsible for adult and juvenile correctional facilities, and adult parole supervision. The Department also handles adult and juvenile interstate compact cases for probation and parole as well as a small percentage of probation supervision cases. Women prisoners are sent to the Federal Correctional Institution in Alderson, West Virginia.*

*The **Board of Probation and Parole** is the paroling authority for adults.*

*The **Supreme Court of Appeals** maintains probation departments that are responsible for providing probationary supervision services to adults and juveniles. Under West Virginia statute, juveniles return to the committing court for institutional release. Since release is judicially and not administratively determined, this is considered probation. These juveniles are supervised by the Department of Human Services. In approximately 25% of the cases, the Department of Human Services also provides the Courts with juvenile probation officers.*

UNITED STATES DEPARTMENT OF JUSTICE

ORGANIZATION AND ADMINISTRATION

*The **Federal Bureau of Prisons**, established in 1930 by an Act of Congress, is assigned the responsibility for "the safe-keeping, care, protection, instruction, and discipline of all persons charged or convicted of offenses against the United States."*

To carry out its responsibilities, the Bureau has a correctional network of 43 correctional institutions ranging from penitentiaries to prison camps. The administration of these facilities is divided into five regions with regional directors headquartered in Atlanta, Dallas, Kansas City, Philadelphia, and San Francisco. Functions such as case management, health and drug abuse programs, education, vocational training and correctional services are delegated to these regions and the individual institutions with coordination and oversight carried out in the Central Office.

YORK PLUS HOFFMAN'S

the Double Way to Fitness!

Over 50 years ago, Bob Hoffman discovered a dynamic partnership. It was then, as a champion athlete and later as U.S. Olympic coach, that he noted the dual importance of proper nutrition *and* training equipment to superior physical performance. In the years since, he has developed a *unified* approach to physical fitness with the products of his own York Barbell Co. and Hoffman's Foods.

Now in the 1980s, the York Barbell Olympic set is the only United States-produced barbell recognized by the International Weightlifting Federation for use in international and Olympic Games competitions.

Now in the 1980s, only Hoffman's Food Products offer the nutrition conscious purchaser its unique range of protein supplements, nutritional aids, beverages and natural snack foods.

U.S. SENTENCING COMMISSION

Washington, D.C.

Created under provisions of the Comprehensive Crime Control Act of 1984, the U.S. Sentencing Commission's responsibility will be to devise guidelines for sentencing individuals convicted of federal crimes, with a goal of minimizing sometimes wide disparities in sentences meted out for similar crimes.

As directed by the terms of the Act, the Commission will provide a report to the Congress by April 1, 1986. The report will contain recommendations for sentencing guidelines, setting minimum and maximum sentences for the entire range of federal crimes. An important feature of the Act provides that the present parole system for federal convicts be phased out.

Administrative support for the Presidential Commission will be provided by the Administrative Office of the U.S. Courts.

NEWFOUNDLAND AND LABRADOR

ORGANIZATION AND ADMINISTRATION

Pursuant to the passing of the Adult Corrections Act, 1975, a division of the ***Department of Justice*** *was created whereby the provincial custodial institutions and the probation service were amalgamated. This marked the commencement of the* ***Adult Probation Services*** *under the* ***Community Corrections Branch*** *of the* ***Adult Corrections Division.*** *The population served are adult offenders (age 17+) whereas juvenile offenders are served by the* ***Department of Social Services,*** *and parole is a responsibility of the Correctional Service Canada.*

The Department of Social Services is the principal agent for the delivery of services to youth who are in conflict with the law. Youth between the ages of 12-18 years usually are referred by the youth court, but other referral sources are possible. The services available include family counselling, alternative measures (diversion), probation, supervision of community service orders and fine options, and custody placements. The latter includes a network of twelve (12) group homes located throughout the province for "open" custody with two training schools located in St. John's and Whitbourne for youth committed to "secure" custody.

QUEBEC

ORGANIZATION AND ADMINISTRATION

Adult correctional services are the responsibility of the ***Department of Justice.***

Probation Service supervises defendants subject to conditions imposed by the court and prepares pre-sentence investigations for the court. In addition, it prepares pre-release reports and supervises paroles released by the Provincial Parole Board which was created in 1979.

Probation Service implemented a Community Service Programme in all the judicial districts and is responsible for its administration. The primary objective of the programme is to provide a court and to those who appear before it a substitute for prison sentences in cases where the public interest is not endangered.

Juvenile services are the responsibility of the ***Department of Social Affairs.***

JUVENILE CORRECTIONAL SERVICES

By virtue of the passage in 1971 of the blueprint law "An Act respecting health services and social services", the province of Quebec was divided into nine socio-sanitary regions within which were grouped all the establishments offering services to children with behavioral problems. Such establishments are called rehabilitation centers; these centers "admit persons suffering from a... psychological or social handicap who require intensive rehabilitation or orientation for a limited period of time."

The admittance of children to these reception centers, the respect for their rights, the type of program their state requires, the conditions for providing care in a top security environment are all regulated by the Youth Protection Act which was sanctioned in December, 1977.

ONTARIO

ORGANIZATION AND ADMINISTRATION

*The **Ministry of Correctional Services** is divided into three main divisions: Operations; Planning and Policy, and Finance and Administrative Services. Also, the ministry has jurisdiction over the **Board of Parole** which considers for parole those inmates serving sentences of up to two years less a day in provincial institutions.*

The Operations Division resulted from the amalgamation of the former institutions and community programs divisions in 1984 and is comprised of the offender programming branch and five regions, each with its own regional director and regional managers. All superintendents of provincial correctional facilities and probation/parole area managers report to the regional managers for their region.

The probation/parole offices in each region provide services for all young offenders who are 16 or 17 years of age and for all adults aged 18 years or over who have been placed under probation supervision by the courts. Staff in these offices also provide supervision for all inmates released from provincial institutions under the authority of the Board of Parole. Probation and parole officers may also be responsible for the supervision of incarcerates released on temporary absence or serving intermittent sentences.

ORGANIZATION AND ADMINISTRATION

Jails accept remand and sentenced adult prisoners, both male and female, of the age 18 and over, regardless of the offense. They also act as lock-ups for all police forces in the province. Females are seldom committed to custody.

In addition, the ***Department of Justice*** *is now responsible for young offenders aged 12 to 17. There are no institutions for young offenders within the province. Those requiring short term detention are held separate and apart in designated areas of the adult jails. TRAINING AND TECHNICAL ASSISTANCE

The American Correctional Association's Division of Training and Technical Assistance offers training to meet the needs of our membership through nationally advertised and on-site training programs. We are pleased to offer correspondence courses for Correctional Officers and Correctional Supervisors.

Training for Staff Trainers

A survey recently conducted by the Technical and Skills Training Division of a national training organization revealed that 60 percent of their technical training members had been in their positions less than two years and 70 percent have never had any specific training in instructional technology. The American Correctional Association has been working with the National Institute of Corrections over the past two years to develop a comprehensive "Train the Trainers" program for correctional staff trainers. We have trained over 800 trainers in the past 4 years. The purpose of this program is to assist the participants in developing the knowledge, skills and attitudes necessary to be a professional correctional staff trainer.

Workshop Design

The learning experiences in this program incorporate a philosophy of "learning-by-doing" in a highly concentrated format. In preparation for a workshop, participants are often asked to devote time to the selection of materials reflecting the needs of their own work settings. In simulated individual and team environments, they then apply the principles being learned to these materials to design and complete products translatable to each person's work situation.

A wide variety of programs will be offered in 1985-86 including:

- Let ACA Train Your Trainers
- Managing Stress in Corrections
- Crisis Intervention and Hostage Negotiations
- Stress-Reduction Techniques for Inmates
- Proposal Writing for Corrections
- Fire Emergency Planning
- How to Develop Policies and Procedures
- Legal Issues Training
- Emergency Evacuation Procedures
- Managing Community Corrections Facilities
- Dealing with the Mentally Ill Offender
- Suicide Prevention

On-Site Workshops

The Association also conducts on-site training programs in the content areas listed, as well as Report Writing, Management and Supervisory Training, and Communication Skills. These programs are designed to be delivered on-site for state and local departments of correction at a greatly reduced rate. The sponsor of an on-site training workshop provides a training site and a minimum number of participants. By using the on-site training model, departments of correction save travel and per diem costs for participants and gain the ability to train a large number of people.

Correspondence Courses

The Association offers two correspondence courses for the corrections professional. Both are four volume, self-instructional courses which provide basic instruction in accordance with ACA Standards.

The Correctional Officer Correspondence Course contains:

- Volume I—Basic Concepts in Corrections
- Volume II—Supervising Inmates
- Volume III—Security Procedures
- Volume IV—Special Inmates

The Correctional Supervisors Correspondence Course contains:

- Volume I—Basic Concepts in Supervision
- Volume II—Advanced Concepts in Supervision
- Volume III—Workbook: Applying Supervisory Techniques
- Volume IV—Legal Issues and Discipline

After completing each volume, participants are given a comprehensive examination. Each candidate who scores 80% or better on each test will be awarded a certificate of successful completion for 40 hours of in-service training. Graduates will also be eligible for 3.6 Continuing Education Units from Eastern Kentucky University.

Furthur information can be obtained by writing or calling Liz Gilbert, Staff Assistant, or William J. Taylor, Manager, Training and Technical Assistance, American Correctional Association, 4321 Hartwick Road, College Park, MD 20740. Phone (301) 699-7650.

A NEW WAY TO TRAIN LEARN AT HOME!

With the American Correctional Association's

CORRECTIONAL OFFICER CORRESPONDENCE COURSE

"The Correctional Officer Correspondence Course was a wonderful training program and very comprehensive."
H. David Haygood, Deputy Sheriff, UT

"I feel this is a very excellent course for all people in corrections to complete."
Larry W. Temple, Training Officer, OH

"Your course was worth the money, time and effort."
Thomas S. Petroviski, Correction Officer, NY

CORRECTIONAL SUPERVISOR CORRESPONDENCE COURSE

"Our department will be testing for Correctional Sergeant in the latter part of the year. I feel that your course will benefit me immensely in any areas I may have difficulty in, and give me the footing I need to become a more knowledgeable and more effective supervisor."
Betty Sue Bailey, Correctional Officer II, CA

"I find that it is full of helpful techniques and information for the Supervisor. I am certainly hoping that all of our Supervisors choose to enroll in this course."
Mary L. McNeil, Training Coordinator, NE

Successful completion of either course entitles you to 40 hours of in-service training; a certificate of completion from the ACA suitable for framing; and eligibility for 3.2 Continuing Education Units from Eastern Kentucky University.

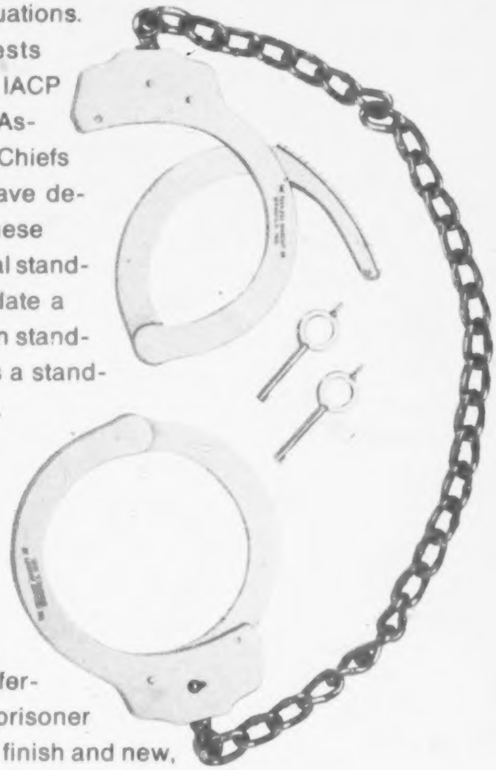
PEERLESS RESTRAINING DEVICES

New Hinged Handcuffs

These patented handcuffs are the ultimate in restraint and provide maximum safety to the restraining officer. New hinge design prevents prisoners from using muscles and tendons to tamper with locking mechanism. When handcuffed properly, prisoners are unable to escape, even with key in hand. Hinged Handcuffs, permit cuffing in a cross arm position, preventing "stepping" through to bring hands from back to front. Particularly effective in transporting prisoners and in high security risk situations. Independent tests approved by the IACP (International Association of Chiefs of Police) have determined that these handcuffs exceed Federal standards. Can accommodate a 25% larger wrist than standard cuffs and uses a standard handcuff key.



Leg Irons

Peerless leg irons are adjustable shackles built for years of service. They are made to the same rigid specifications as U.S. government approved Peerless handcuffs. They have 19 positive locking positions to a 10" circumference and a strong 15" chain to prevent the prisoner from running. All steel construction with nickle finish and new, improved double lock. Two standard handcuff keys are furnished.

For complete information contact your local police equipment supplier.

The Case of the Overcrowded Prison:

It was a dark and desperate hour.

"Thirty new commitments are on the way, and we need space fast," the tough administrator demanded. The boys from the governor's office scowled. While the correctional officers stood watch, the restless men clamored.

Then the guy from Gelco Space stepped boldly to the fore. "More space in less time for less money with our mobile and modular units," he promised. "Dormitories, kitchens, standard or custom designs. Even an entire prison. Whatever you need. And you can buy, rent, or lease at any of the more than 80 sales and service locations."

"Simple addition," the astonished group concluded as a ray of sunlight pierced through the walls. One shout rang out: "Reach for the phone. Call Gelco Space, 1-800-523-7918."
